With our GUA 12" Large Touch screen, the user / purchaser will need to do the following screen setup to ensure that their new touch screen has been installed to the specific F-150 Ford truck and features the vehicle has been equipped with. This procedure needs to be done to ensure that our product works with your specific model truck.

After the installation process and the screen is powered on, please follow our Screen to Truck setup procedure below:

Step 1: Go to the SETTING option on your 12" Large Screen,

Step 2: Select SYSTEM,

Step 3: Select SOFTWARE VERSION,

Step 4: Select OS and then MCU, repeat this selection 3 times to activate the setup back end menu.

Step 5: Select CONFIGURATION SETTING, then go to the model selection screen

Step 6: MODELS: F150/F250/F350/F450 (select your specific model of truck)

Step 7: SERIES selection: XL/XLT/LARIAT/KING RANCH/ LIMITED/ PLATINUM/ RAPTOR (select your Series of truck)

Step 8: A/C Setup: (select the correct base truck option)

1) XL/XLT Basic

2) XLT with heated seats

3) 500A and up all others

Step 9: Speaker Setup: (select the correct base truck option)

1) Normal (all others without B&O)

2) B&O

Step 10: Truck Camera setup:

1) Select AVM: for the trucks with 360 camera

2) Select NONE: for the trucks only have back up camera or without back up camera, also for after market add on back up camera's

3) Select AVM with touch controller: for the truck with rear tow camera (mostly for super duty trucks)

**Please Note: After choosing the specific options above, Always save it to have these required specifications saved into the screen programming.**

GU Auto Tech inc. proudly brings you the latest GUA 12" Large Touch Screen product for the Ford F-150 trucks. When installing our screen this Screen setup is required to have the product work with your specific model / version truck. If you have any questions, please do not hesitate to get in touch with us.
